

Dear Teacher,

Thank you for planning a field trip to VanDusen Botanical Garden. This spectacular 22-hectare (55-acre) garden, right in the heart of Vancouver, was first opened to the public in 1975. Our mild climate allows the cultivation of an outstanding plant collection set amidst rolling lawns, tranquil lakes and dramatic rockwork with vistas of the mountains and Vancouver cityscape. With its excellent plant collections and the beauty of their display, the Garden promotes knowledge and understanding of the world of plants and their fundamental importance to life.

Presented by the Vancouver Botanical Gardens Association (VBGA), your 90 minute guided program will consist primarily of a series of hands-on activities through selected areas of the Garden. Your group will be subdivided into smaller groups and guided by trained volunteers. In the case of seriously inclement weather, some of the activities may be conducted undercover outside the visitor centre.

Your pre-visit package contains general information on the school program policies and guidelines, directions to the garden, and resource materials to support the learning experience for your students. **Please be sure that every teacher attending the field trip receives all pre-visit materials.** Feel free to make as many copies of this package as needed.

As you plan your visit to the Garden, please use the **Field Trip Checklist** and the pre-visit letter for your chaperones. We look forward to your visit to VanDusen Botanical Garden and hope that you and your students will have an exciting and educational adventure.

Kind regards,

What is a Botanical Garden?

At first glance, VanDusen Botanical Garden may look like a regular park, however on closer inspection you will find there are labels on plants, interpretive signage and a detailed map to guide you through areas of the garden that have plants from around the world. Our mild Vancouver climate allows the Garden to represent ecosystems that range from across Canada, to tropical South Africa, South America, the Mediterranean, and more. Botanical gardens are living museums, dedicated to cultivation of plants for education, conservation and research.

Our mission at VanDusen is to inspire understanding of the vital importance of plants to all life through the excellence of our botanical collections, programs and practices.

Garden Visitor Guidelines

Please share this Code of Conduct with your students in the classroom, and revisit the guidelines when you arrive at VanDusen.

- 1) VanDusen Botanical Garden is a place of beauty with many wonderful plants and animals to see. For this reason, we ask that visitors not pick any living plants or plant parts, and to return any 'natural treasures' you found in the garden before you leave.
- 2) Respect the wildlife in the Garden as this is their home: Spend time observing the wildlife but try to not scare or hurt animals in any way (this includes insects!)
- 3) Respect your fellow Garden visitors: please do not run and make lots of noise in areas where other visitors might be enjoying a quiet time
- 4) Keep to pathways and grassy areas when walking to protect our plants from accidental damage.
- 5) Listen carefully to your Guided Program Leader. Turn cell phones to silent during your program.
- 6) Cameras are welcome, but please refrain from interrupting the flow of the guided program to take posed photos.
- 7) Chaperones must stay with their group at all times.
- 8) When visiting indoor areas of the garden such as washrooms, the classroom or entrance foyer, keep noise to a minimum and remember that other visitors and staff use these spaces
- 9) Place all garbage and recycling in appropriate receptacles. If you can't find a garbage can, put it in your pocket or bag until you do find one.

Thank you for keeping the Garden a beautiful place to visit. Enjoy Exploring!
